What is Casa Tocoton?

Casa Tocoton is a space where we offer experiences and workshops related to culture and art, many of which are connected to Japan.

We aim to connect people with creativity, knowledge, and history, which is why we have embarked on this new adventure, full of excitement and hope to share our passion for cultural experiences.

**A place where people of all nationalities, ages,
and sexual orientations can come together to experience art and culture.
And a place to make new friends.**
